National Board Voting Now Open

# Polls open for National Board Elections

Check your email for instructions.

Voting for the 2022-23 National Board of Directors opened May 15. Members eligible to vote should have received an email or paper ballot, depending on their set preference, with instructions on how to vote. For more information on the candidates, visit the link below.

[Meet the candidates.](#)

## Statement from Romina Byrd on her candidacy

"Thank you to everyone's support during this election. As you have seen from the ballots, I have made the decision to step down from running for National Vice President."

## Chapter Dues Update form due to National Office by June 30

If your chapter is updating its dues for the 2022-23 NAWIC year, chapter leadership is required to send in the Chapter Dues Update form to the National Office by June 30. Changes in Chapter Dues will not be accepted after June 30, 2022.

Please email Membership Manager Lori Wagner at [loriw@nawic.org](mailto:loriw@nawic.org) for the form and/or with any questions.

If your chapter is not updating its dues, please email Lori to ensure the office has the correct information.

## Chapter Leadership/Committee Update Forms due to National Office by July 15

Chapter Leadership and Committee rosters for the 2022-23 NAWIC year must be sent to the National Office by July 15.

Please contact Membership Manager Lori Wagner at [loriw@nawic.org](mailto:loriw@nawic.org) for the Chapter Leadership Update form or with any questions.

## Join NAWIC for the 'Equity in the Construction Industry' panel

Diversity, Equity, & Inclusion and Professional Development & Education Presents:

**EQUITY IN THE CONSTRUCTION INDUSTRY**

Our panel will share their stories as a woman in construction and inspire others on how they are moving the needle (society/agencies/corporations) on diversity and equity.

## New Online Resource for Measuring and Strengthening Safety Climate and Safety Management at your Company

## Safety Climate — Safety Management Information System

Many companies don't have the financial or personnel resources needed to conduct a safety climate assessment or create the safety management policies and procedures needed to effectively carry out safety climate improvement recommendations. Until all construction companies have the opportunity to measure their safety climate and strengthen it using effective safety management tools, the industry will continue to experience high levels of poor safety and health outcomes.

To help address this, CPWR – The Center for Construction Research and Training ([www.cpwr.com](http://www.cpwr.com)) brought together eleven safety professionals from small and medium-sized construction companies across the country to help develop the web-based Safety Climate-Safety Management Information System (SC-SMIS).
