

INTRODUCTION

The National Association of Women in Construction has grown tremendously since its organization in 1955.

Continued orderly growth through establishment of new chapters and expansion of membership in existing chapters requires that all be governed by approved policies and procedures. Accordingly, this Operations Manual has been prepared for the guidance of all members of NAWIC.

It is the policy of this Association to encourage each chapter to conduct its own affairs within the objectives and framework of the National Association. The purpose of this Operations Manual is to provide guidelines to that end.

As established by the NAWIC Board of Directors, this Operations Manual supersedes all previous NAWIC handbooks, which are hereby repealed.
