

Welcome to NAWIC's 25th Annual Women in Construction Week! The focus of WIC Week is to highlight women as a viable component of the construction industry. Since its first year, it has evolved into a nation-wide initiative that thousands of people recognize and celebrate. Each year, chapters and companies across the country recognize the event through raising awareness about the opportunities in construction, learning about the barriers still in place for women in male-populated industries, and giving back to their communities.

This Toolbox is your guide to the week. From educational resources to events near you, keep reading to find out how you can celebrate!

# DAY SIX GETTING INTO CONSTRUCTION

### Resources

#### Leading the Country

Washington D.C. leads the country in the share of women holding construction industry jobs.

#### <u>The Future of Women in</u> <u>the Industry</u>

Women working in construction trades is the highest it has been in two decades.

#### Many Women Don't View the Construction Industry as a Viable Career Option

A barrier of getting into this industry is not making that career known for young girls who may not have a natural connection to the industry.

## WHAT'S HAPPENING

### **Featured Event**

#### Finding Your Fierce

Minneapolis/St. Paul Chapter #164 Join this dynamic fireside chat with Teresa Sande, author of "Finding Your Fierce," as we learn about systems thinking as a way to quiet the inner critic that threatens to sabotage your success, receiving tools and tips to help interrupt self-doubt, project confidence, and harness personal power.
