Meet the Author

Mollie Elkman joined the construction industry and found she was often the only woman in the room. When she learned about an all woman-built home, the stories of the women involved in the project inspired her book, *The House That She Built*. Mollie's book educates young readers about the people and skills needed to build a home.

Guest Speaker

Marly Carmona was born in Venezuela and earned a Master's Degree in Sustainable Bio-products at Mississippi State Univ. and a Ph.D in Forest Resources. She is now participating in a leadership development program at Weyerhaeuser gaining experience in the distribution business of forest products. Her rise in the industry is a fascinating story.

Guest Presenter

Monica Miraglilo's journey from QVC model to certified contractor is an amazing tale of innovation and determination. To date, Monica and her business partner/husband have fixed and flipped more than 60 homes, most in the Philly area. In 2020 Monica founded Girlbuild an empowering initiative to support and educate women as builders.

Certified Contractor Program

The Andersen® Certified Contractor Program provides invaluable support to your home improvement business by offering quality homeowner leads, a dedicated support team, and a variety of business growth tools.

Only Andersen Certified Contractors get exclusive access to leads, pricing tools, and a bonus 2-year limited installation warranty. Learn more about the Andersen Certified Contractor Program at this event!
