Play to Your Strengths

The Coaching Corner
with Michael Riegel

**Play to Your
Strengths**

We often hear the refrain that we should accentuate our strengths and minimize our weaknesses. This is generally good advice and an approach that works in many situations. Before you can begin implementing that approach, we all need self-awareness to recognize those traits. Or at least openness to receiving feedback from others. Getting beyond our blind spots and accepting our natural selves is an important first step.

Breaking ground on mental health, one conversation at a time

It's a familiar sight: Workers clustered together on a job site, with hard hats and safety vests clearly visible. This image showcases a laudable commitment to the physical safety of its workforce, a necessary aspect of any construction company.

(From Construction Dive.)

Construction has happiest workers of any industry

Rising wages and plentiful jobs have kept employees' spirits high, but watch for signs of discontent, a new report says.

(From Construction Dive.)

Construction job openings inch down

The labor market appears to be cooling, but construction labor woes won't go anywhere anytime soon, an economist says.
