Dear Employer,

The National Association of Women in Construction (NAWIC) believes education is a key component in developing a strong workforce and reaching the next generation of students to join the industry, which benefits both the employer and employee. This year we want to stress the importance of education for our members, so we will have a NAWIC Education Foundation (NEF) CDT Course and testing for certification, as well as Continuing Education Credits available to attendees. Our three education tracks will focus on the industry’s field workers, office workers, and Career and Leadership advancements. NAWIC members will also have a track specific to the Association. NAWIC’s 69th Annual Conference provides education, networking, and support for employees in every sector of construction.

This year, our national conference will be held Aug. 14-17 in Houston, Texas. Throughout the four-day conference, attendees will gain knowledge on a diverse set of topics in professional, personal, and industry-related areas, through courses and activities such as:

- Networking Opportunities
- Jobsite Tours
- Discussion Panels
- Skills Training
- School supply donation drive

In addition to education, there will be opportunities for networking and conversations at galas and luncheons, panels, and keynote speakers.

When members of your staff request company support to attend NAWIC’s National Conference, please accept their request and offer your support. Our conference is designed to increase attendees’ abilities to become better businesswomen and enhance their contributions to the construction industry and the profitability of your company. When investing in these women, you are investing in the future of your company and the construction industry.

If you have any questions or would like to discuss anything, please do not hesitate to reach out to me. I hope to see you all in Houston.

Thank you,

Karen Hager, CBT, CIT, ESP
NAWIC National President
